

In the De Madre a Madre photonovel series, Lupe and her family and friends tell their stories about being pregnant and having a baby. In the Breastfeeding photonovel, Ana, Rosa and Lupe go to a breastfeeding support group. Mothers share their experiences and receive tips from a breastfeeding advisor. Key topics: Colostrum, latching on, answers to common problems and concerns, such as sore and cracked nipples, engorgement, and a blocked duct. This companion facilitator guide is designed to help you facilitate a group session using the Teach-With-Stories Method<sup>®</sup> and the De Madre a Madre photonovel on breastfeeding. The guide includes: the photonovel, suggested stopping points and discussion questions for each segment of the story, detailed instructions to implement the five steps of the Teach-With-Stories Method, and supplemental field-tested activities for more in-depth learning related to the photonovel topic.
