

It is his first year at the International School for the Gifted, a school for young mages in a parallel world, and Cori is not impressed. Herbal magic. Wandling. Flying on a plastic disc. Cori is all very good at it, but none of the explanations on how things work makes any sense. Even the talk of an impending, inevitable war bores him. What is a disaffected youth to do? Try not to get involved, of course! Oh, and talk to a mysterious voice that may or may not be evil, and to a giant cat that may or may not be a bad kitty! ***** The events in the six Cori Rubio books take place mostly in the actual world, a parallel world where magic and bisexuality are as ubiquitous as smart phones are in the literal world. Follow Cori as he journeys from bored disaffection to reluctant responsibility. He may be talented enough to save the world, but does he care? No. Well, he cares, but not about that. The main events are familiar to fans of coming-of-age fantasy novels, and these books are obvious and unfaithful rip-offs of a boy-wizard series. But, this globe-trotting, multinational tale told from the perspective of a committed bystander and full of rich portrayals of alternate landscapes and many ways of life will bring freshness to your jaded eyes as well as to your cats™. And you will never scoff at fermented bananas or gull spit again.
