

This book, Volume 2, Set 2 of the AIWGMB, is a continuation of a three-set series of stories and illustrations representing all of the 7-letter words captured by The Central Twenty-One Five-Letter Stems that feed into the Central Seven Six-Letter Stems of Volume 1, Set 1. Knowledge and flash, photographic-memory recall of these word lists, together with those of the Auxiliary Seven Six-Letter Stems of Volume 1, Set 2 can be valuable assets for any wannabe, top contender in our rapidly growing, competitive, word-game, social networks. The wordlists, organized in Mentafile format, are coded with peg-words assigned to each letter of the alphabet. This type of iconic coding-organization can make letter-management, and identification of 7-letter words within scrambled arrays, effortless, almost as though one has an app that automatically brings bonus-words to mind as one plays off letters on-the-way to one of the Central Seven Six-Letter Stems. For example, in a board game, where letters must be unscrambled to reveal hidden words, one might hold, in alphagram order, the following seven letters; ADNRSTU. For those accomplished with Vol. 2, Set 2 of the AIWGMB, the identification of the five-letter stem, RNAS T, and the letter, D, within ADNRSTU, would be instantaneous, along with the mental search for the story and illustration of She STRANDS the drunk on a TUNDRAS plain Alternatively, one might hold ADNRSS T, which would immediately bring up the word STRANDS from that story. STANDER, the only other possibility for a 7-letter RNAS T D word would show up with the holding of ADENRST, the only bonus word featured in the drunk file of RNEAST, one of the Central Seven Six-Letter Stems of Vol. 1, Set 1. Therefore, with no E, R or S in the hand, one skilled in the use of The AIWGMB would know, with valuable certainty, that no 7-letter bonus words were available for play.
